VKTR Industries Expands its Brand into the Law Enforcement and Government Sector Eric Luley to join VKTR Industries as National Sales Manager

November 1, 2023

VKTR Industries, the manufacturer of premier short-stroke piston-driven AR platform rifles, is proud to announce the addition of Eric Luley to the management team. He will be directly managing the growth of their law enforcement sales and business development for future government opportunities.

Additionally, Eric will be helping drive VKTR's rapidly expanding commercial growth, including the commercial dealer and distributor network.

Eric brings over seven years of industry experience, particularly in the government sector, supporting law enforcement at the federal, state, and local levels. He has previously worked at Knights Armament Company equipping tactical units with suppressors, precision sniper rifles, and clip-on night vision. In addition, he has managed the government program at Norma Precision where he provided special-purpose sniper ammunition to tactical units across the United States.

Eric has served in various leadership and training roles throughout his 24-year career in the United States Army. He has experience in law enforcement, security, training and tactical planning at multiple levels of leadership.

VKTR is excited to roll out its Law Enforcement program and is currently taking requests for agency in-person demonstrations and evaluations of our new VKI rifle. VKTR will also offer an individual officer and active military program via the website shortly. Requests for agency support or information can be directed to eluley@vktrind.com. VKTR is also open to LE-specific dealer inquiries.

New commercial dealer requests and support can be found through the following link: <https://www.vktrind.com/become-a-dealer/>
